PREP INCURSION TOYS OVER TIME

Dear **Parents/Guardians**,

As part of our Global Studies unit the preps have been exploring toys, how they are made, what they are made from and how they move.

Supreme Toys Incursion will be visiting on Friday 25 March where they will present to the students 'Toys over Time'.

This session will enable the students to better understand how toys have evolved. They will be exploring how toys move, their cultural significance, and the materials they are made from. It is a hands-on experience which explores stories, facts, and technology through a range of iconic toys.

We encourage you to discuss the experience with your child and investigate toys at home and toys you enjoyed throughout your childhood.

If you have any questions, please feel free to email your class teacher.

Yours sincerely,

Elle Pelly
Prep Coordinator

Sally Savic
Head of Junior School
